2024-25 CORE MATH FLOWCHART

No Entry Restriction

College Intermediate Algebra or MPA or AP Precalculus Score Required
- Math Reasoning M107 (4) and/or M108 (4)
- Functions and Algebraic Methods M112 (5)
- Introductory Algebra M099 (5)

MPA or AP Precalculus Score or Previous Course Required
- Business Algebra M156 (4)
- Intro Statistics M240 (4)
- Precalculus I M114 (5)
- Math and Art M160 (4)

Math 114 or equivalent or AP Precalculus Score or Previous Course Required
- Business Calculus M157 (4)
- Note: M124/134/138 or AP Calculus 3-5 fulfills M157
- Calculus I M124 (5)
- Accl. Precalculus M118 (5)

MPA and Instructor Permission Required
- Honors Calculus I M134 (5)

Previous Course or AP Calculus Score Required
- Calculus II M125 (5) or M135 (5)
- Accel. Calculus M138 (5)
- Multivariable Calculus M224 (5)

Math Placement Assessment (MPA) Exceptions
- Students who score two or higher on the AP Precalculus or AP Calculus Exam are not required to take the MPA, but check course eligibility based on AP score and exam. Students seeking admission to Math 134 MUST take the MPA.
- MPA not required but strongly recommended for Math 099.
- Eligible for Math 107, 108, 111, 112, 371 or 381 via college credit for Intermediate Algebra with at least C-. Math 371 & 381 require a C or better.
- Eligible for Math 240 via college credit for College Algebra (CA) course with a C- or better or Precalculus 1 (PC1) with at least C+.
- Eligible for Math 114 or 156 via college credit for College Algebra (CA) course with a C- or better or a course equivalent to WWU Precalculus I with a C- or better.
- Eligible for Math 157 via college credit for Precalculus I (PC1) with at least C+.
- Eligible for Math 124 via college credit for 2nd/last course in Precalculus (PC2) with at least C+.

Math Placement Eligibility Scores:
- Course: MPA Score
  - Math 099: 0-24
  - Math 107, 108: 25
  - Math 111: 30
  - Math 112 with 109: 30-34
  - Math 112: 35
  - Math 240: 35
  - Math 371, 381: 45
  - Math 114: 55
  - Math 156: 55
  - Math 160: 55
  - Math 157: 65
  - Math 118: 70
  - Math 124: 80-100

Western Washington University
Make Waves.

Students may use an appropriate MPA score to serve as a prerequisite to register for selected classes in the following departments: ASTR, BIOL, CHEM, CSCI, DSCI, ECON, ENRG, ENVS, ESCI, GEOL, HNRS, PHYS, and SCED.

Check Browse Classes (catalog.wwu.edu) for detailed course prerequisites and MPA eligibility scores.
<table>
<thead>
<tr>
<th>WWU Course</th>
<th>Prerequisite</th>
<th>QSR Status:</th>
<th>Description:</th>
<th>Notes and serves as a prerequisite for:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Math 099: Introductory Algebra (5 credits for financial aid purposes)</td>
<td>None</td>
<td>Does not fulfill any portion of the QSR</td>
<td>Gain skills working with algebraic expressions and equations in order to prepare for Math 107, 108, 111 or 112.</td>
<td>Preparation for Math 107, 108, 111 or 112.</td>
</tr>
<tr>
<td>Math 107: Mathematical Reasoning and Its Applications (4)</td>
<td>Math 099, MPA 25 or higher, or suitable AP Precalculus score</td>
<td>Partially fulfills QSR</td>
<td>Reading quantitative information, reasoning, personal finance, data display and summary, assessing risk; quantitative decisions.</td>
<td>Math 107 does not serve as a prerequisite for any further math courses.</td>
</tr>
<tr>
<td>Math 108: Mathematical Applications and Reasoning (4)</td>
<td>Math 099, MPA 25 or higher, or suitable AP Precalculus score</td>
<td>Partially fulfills QSR</td>
<td>Assessing quantitative information; dimensional analysis and proportional reasoning; simple mathematical models; graphical representations; geometry; voting.</td>
<td>Math 108 does not serve as a prerequisite for any further math courses.</td>
</tr>
<tr>
<td>Math 109: Support Topics for Math 112 (2)</td>
<td>MPA 30-34; Co-requisite Math 112</td>
<td>Does not fulfill any portion of the QSR</td>
<td>Support for success in Math 112, with a focus on algebraic concepts, skills and reasoning, and using external resources. Intended for students with a STEM or Business interest.</td>
<td>Math 109 is not a prerequisite for any courses. It supports successful completion of Math 112.</td>
</tr>
<tr>
<td>Math 111: Functions and Algebraic Methods for Teachers (5)</td>
<td>Math 099, MPA 30 or higher, or suitable AP Precalculus score</td>
<td>Does not fulfill any portion of the QSR</td>
<td>For preservice elementary teachers; algebraic problem solving and modeling; linear, quadratic and exponential functions and inequalities.</td>
<td>Math 371, 381. This course must be passed with a C or higher to serve as a prerequisite. Math 111 does not serve as a prerequisite for math courses other than 371 or 381.</td>
</tr>
<tr>
<td>Math 112: Functions and Algebraic Methods (5)</td>
<td>Math 099, MPA 35 or higher, or suitable AP Precalculus score</td>
<td>Partially fulfills QSR</td>
<td>Pattern recognition and generalization, building mathematical models &amp; problem solving are emphasized.</td>
<td>Math 114, 156, 160, 240, 371, 381 This course must be passed with a C– or higher to serve as a prerequisite. Math 371 or 381 requires a C or higher.</td>
</tr>
<tr>
<td>Math 114: Precalculus I (5)</td>
<td>Math 112, MPA 55 or higher, or suitable AP Precalculus score, or College Algebra (CA) course with at least a C-</td>
<td>QSR in full</td>
<td>Data analysis, functions as mathematical models, functions and their graphs.</td>
<td>Math 115, 157. This course must be passed with a C– or higher to serve as a prerequisite.</td>
</tr>
<tr>
<td>Math 115: Precalculus II (5)</td>
<td>Math 114 or suitable AP Precalculus score</td>
<td>QSR in full</td>
<td>Data analysis, modeling, trigonometry, inverse functions.</td>
<td>Math 124. This course must be passed with a C– or higher to serve as a prerequisite.</td>
</tr>
<tr>
<td>Math 118: Accelerated Precalculus (5)</td>
<td>MPA 70 or higher, or suitable AP Precalculus score</td>
<td>QSR in full</td>
<td>Functions as mathematical models, functions and their graphs, inverse functions, trigonometry.</td>
<td>Math 124, 157. This course must be passed with a C– or higher to serve as a prerequisite.</td>
</tr>
<tr>
<td>Math 124: Calculus and Analytic Geometry I (5)</td>
<td>Math 115 or 118 or MPA 80 or higher, or final college course in precalculus (PC2) with C+ or better, or suitable AP Precalculus or AP Calculus score</td>
<td>QSR in full</td>
<td>Average and instantaneous rates of change, interpretation, computation and application of derivatives to optimization, rates, graphing &amp; antiderivative problems.</td>
<td>Math 125 This course must be passed with a C– or higher to serve as a prerequisite. May be used as a substitute for Math 157.</td>
</tr>
<tr>
<td>Math 125: Calculus and Analytic Geometry II (5)</td>
<td>Math 124 or Math 134, or suitable AP Calculus score</td>
<td>QSR previously fulfilled</td>
<td>The definite integral, techniques of integration, applications including area and volume, growth and decay, introduction to differential equations.</td>
<td>Math 204, 224, 226, 302, 341, 360 This course must be passed with a C- or higher to serve as a prerequisite.</td>
</tr>
<tr>
<td>Math 138: Accelerated Calculus (5)</td>
<td>Suitable AP Calculus score</td>
<td>QSR previously fulfilled</td>
<td>A study of selected topics in single variable calculus from a deeper conceptual perspective, for students already familiar with its computational aspects.</td>
<td>Math 204, 224, 226, 302, 341, 360 This course must be passed with a C- or higher to serve as a prerequisite.</td>
</tr>
<tr>
<td>Math 156: Algebra with Applications to Business &amp; Economics (4)</td>
<td>Math 112, MPA 55 or higher, or suitable AP Precalculus score, or College Algebra (CA) course with at least a C-</td>
<td>QSR in full</td>
<td>Equations and inequalities, graphs and functions, exponential and logarithmic functions, business applications.</td>
<td>Math 157. This course must be passed with a C– or higher to serve as a prerequisite.</td>
</tr>
<tr>
<td>Math 157: Calculus with Applications to Business &amp; Economics (4)</td>
<td>Math 114 or 118 or 156, MPA 65 or higher, or college precalculus 1 (PC1) course with C+ or better, or suitable AP Precalculus score</td>
<td>QSR in full</td>
<td>Limits, rates of change, partial differentiation, graphs and optimization, integration, business applications.</td>
<td>May not be used as a substitute for Math 124. Math 124 or AP Calculus score of 3, 4 or 5 fulfills Math 157. Math 157 does not serve as a prerequisite for further math.</td>
</tr>
<tr>
<td>Math 160: Mathematics and Art (4)</td>
<td>Math 112, MPA 55 or higher, or suitable AP Precalculus score</td>
<td>QSR in full</td>
<td>Investigation of connections between mathematics, art and design with emphasis on mathematical inquiry and discovery.</td>
<td>Math 160 does not serve as a prerequisite for any further math courses.</td>
</tr>
<tr>
<td>Math 240: Introduction to Statistics (4)</td>
<td>Math 112, MPA 35 or higher, or college precalculus 1 (PC1) course with C+ or better, or suitable AP Precalculus score, or College Algebra (CA) course with at least a C-</td>
<td>QSR in full</td>
<td>Descriptive statistics, basic ideas of probability, normal distribution, sampling, and more.</td>
<td>Math 240 does not serve as a prerequisite for any further math courses.</td>
</tr>
</tbody>
</table>
## Calculus Placement Advice:

- Students with college credit for Precalculus I (PC1) with at least a C+ or better or a score of 4 or 5 on the AP Precalculus exam can register for Math 157.
- Students with college credit for a 2nd/final Precalculus (PC2) course with C+ or better or a score of 5 on the AP Precalculus exam can register for Math 124.
- Students with college credit for Math 115 or 118 or the equivalent can register for Math 124 with a C- or better if calculus coursework is required.
- Students with college credit for a calculus course with C- or better can register for Math 125 or higher.
- Students who score 3 on the AP AB Calculus Exam should take Math 124, if calculus coursework is required.
- Students who score 4 or 5 on the AP AB Calculus exam should take Math 138. Math 224 is not recommended.
- Students who score 2 or more on the AP BC Calculus Exam should consult a math advisor to select the best course.
- Math 124, 134, 138 or AP Calculus Exam with a score of 3, 4 or 5 fulfills Math 157.
- Math 134 (Honors Calculus) is for Honors students and others with high potential. Prospective students must take the MPA and talk with and obtain permission to register from a math advisor.

A few very strong students will not have taken the AP Calculus Test, but will have adequate backgrounds to skip Math 124 and begin with Math 125 or possibly Math 138. Prospective students should speak with a math advisor.
